Ukrainian Fitness Association

With this letter the Ministry of Youth and Sports of Ukraine expresses its support to the Ukrainian Fitness Association for its contribution to the development of physical culture and promotion of a healthy lifestyle in our country in this difficult time.

We are deeply convinced that joint activities of governmental agencies and NGOs that promote physical activity and healthy lifestyle values among different age groups are crucial for the formation of a healthy, active and conscious society, help to create a broad national platform for the development and implementation of programs that will raise awareness of the importance of physical activity reaching different segments of the population, especially children and young people.

Notably, experts of the Ukrainian Fitness Association were involved in the development of the draft Concept of the State Targeted Social Program for the Development of Physical Culture and Sports for the period up to 2029, and also participated in the discussion of the implementation of a mechanism for conducting an experiment to involve sports clubs as NGOs in physical education and sports activities.

The Ministry actively supports the initiatives of civil society institutions to create and implement new projects that aim to improve the health of the nation and increase the level of physical activity among the population.

We believe that by working together we will be able to generate meaningful results and build a solid foundation for a healthy future for Ukraine.

Matvii BIDNYI
Minister for Youth and Sports of Ukraine
